WebScheduler Local

PROFILE GUIDE

Build a profile customers choose.

A step by step guide to your WebScheduler Local business profile: the photos that work, a description written with ChatGPT, your services and brands, and everything Verified Business adds.

Inside:

Before you start · profile strength · what you do and how to reach you · photos that work · your description with ChatGPT · services · hours and map · brands we carry · Verified Business · locations · team members · jobs · reviews · your launch checklist

WebScheduler (Pty) Ltd · South Africa · October 2026

01 · BEFORE YOU START

Twenty minutes, and these things to hand.

Your business profile is free, and it stays free. It is one address with your services, hours, photos, map and reviews that you can share anywhere. If you have no website, a complete profile does the job a website would. Gather these first and the form takes about twenty minutes.

HAVE READY	WHY
Your trading name	Exactly as it appears on your signage, invoices and Google, so customers recognise you.
An email address you check	It identifies your profile. Every edit link and review alert goes to it.
Phone and WhatsApp numbers	Customers call or message from the profile in one tap.
Your address	Puts you on the map and in local discovery. You choose whether it shows publicly.
Your opening hours	Including public holidays, if they differ.
A logo and up to 8 photos	See pages 5 and 6 for what to shoot.
Your list of services	With prices if you want to show them.
A few honest answers about you	ChatGPT turns them into your description (pages 7 and 8).

Where to go

- **Create:** local.webscheduler.co.za/add-profile. The form is in five numbered sections, with a tracker that shows which are done.
- **Edit later:** local.webscheduler.co.za/manage. Enter your email and we send you a link. No password needed.
- **Rather we did it?** Our profile setup service completes your profile for R2 000 once off, within 3 business days. It buys our time, nothing else: no badge and no higher place.

02 · PROFILE STRENGTH

Complete beats paid. Every time.

Discovery results are ordered by how complete a profile is. Your profile strength, out of 100, shows on the form as you fill it in and on your Manage page, with your biggest wins listed first. Every point is free. Nothing you pay for can raise it.

THE QUESTION A CUSTOMER ASKS	WHAT ANSWERS IT	POINTS
Can I place you?	Category, street address, town, province, a map pin	25
Can I reach you?	Phone, a website or social page, an online booking link	20
Can I size you up?	A description of 120 characters, and more for 300; a logo; up to 5 photos	30
Do you answer the question?	Up to 4 services, opening hours for at least 3 days, facilities you tick, areas of focus	25

SCORE	WHAT IT MEANS
Under 40	Your profile is live and can be discovered on the platform, but we ask Google not to show it yet.
40 and up	Offered to Google and other search engines.
55 and up	Can appear in Recently added on the home page.
65 and up	**The target.** A profile customers can choose from without having to call first.

Paying never moves a business up. Completing its profile does.

Bands: Needs work under 40, Getting there from 40, Good from 60, Excellent from 80. The score is never shown on your public profile.

Be easy to recognise.
Be easy to reach.

SECTION 1 · WHAT YOU DO

FIELD	HOW TO GET IT RIGHT
Profile type	Most businesses are a business. A club, complex or mall chooses Place or Venue, ticks its facilities, then contacts us to link the businesses inside it.
Category	The one a customer would look for, not the one you would use at a trade show. A salon is a salon even if it also sells products. It is worth 8 points on its own.

SECTION 2 · HOW CUSTOMERS REACH YOU

FIELD	HOW TO GET IT RIGHT
Business name	Your trading name only. Do not add places or services to it (“Best Plumber Durban Cheap”): customers trust it less, and your services and area already do that job.
Phone	The number that is actually answered in business hours. Worth 10 points, the most of any single field.
Alternative phone	A mobile beside a landline, say. Both show on your profile.
WhatsApp	Adds a Chat on WhatsApp button. Only fill it in if someone replies.
Website	Optional. No website? Leave it blank: your profile is your website.
Social pages	Facebook, Instagram, LinkedIn, TikTok. Paste the page link; for Instagram and TikTok your @handle is enough. Each shows as an icon.

Your name, title and position under Your details are for our records only and are never shown on your profile.

Your photos are the first thing people see.

Your profile opens with a band of your photos, side by side, with your name, category, rating and today's hours written over the bottom of them. On a phone it shows one photo at a time, and customers swipe. A profile with no photos keeps a plain heading, and is easy to scroll past.

	WHAT WE ACCEPT, AND WHAT HAPPENS
Logo	One. Square works best, on a clear or white background. It sits beside your name and is used when your profile is shared.
Gallery	Up to 8 photos.
Formats	JPEG, PNG, WebP, GIF, BMP or AVIF, up to 10 MB each. A GIF may be up to 2 MB.
Size	We resize every photo to 1600 pixels and store it small, so upload the best original you have. Never a screenshot.
iPhone	If a photo is refused, it is probably HEIC. Choose Settings, Camera, Formats, Most Compatible, or upload from the Photos picker.

Five rules for the header

01

LANDSCAPE, AND KEEP THE BOTTOM QUIET

Turn the phone sideways. Your name is written over the bottom third, so keep faces, products and signs in the top two thirds.

02

YOUR BEST PHOTO FIRST

The first photo leads on a phone and in link previews. Make it the one that says what you do at a glance.

03

DAYLIGHT, NOT FLASH

Shoot near a window or outside in the shade. Wipe the lens. Hold still.

04

NO TEXT IN THE PHOTO

Flyers, price lists and specials go stale and are unreadable on a phone. Put prices in your services instead.

05

REAL, AND YOURS

Your premises, your team, your work. Stock photos and images from other websites are not allowed, and customers can tell.

Eight photos.
Here is the shot list.

Each photo should answer a question a customer has before they call. Five photos earn the full photo points; eight tell the whole story.

	SHOT	THE QUESTION IT ANSWERS
1	**Your work, at its best**	What do you actually do? A finished haircut, a fitted kitchen, a plated dish.
2	**The outside, from the street**	Will I find you? Include the sign and the entrance.
3	**Inside, wide**	What is it like? Clean, tidy, well lit, shot from a corner.
4	**You or your team at work**	Who will I deal with? Hands busy, eyes on the job, not posed.
5	**Before and after**	Is it worth it? Same angle, same light, both halves.
6	**Close up of detail**	Do you take care? Stitching, finishes, ingredients.
7	**Products or equipment**	Do you have what I need? Shelves, tools, vehicles.
8	**Parking or access**	Can I get there? Parking, ramps, the floor you are on.

Avoid

- **Customers' faces** without their permission, and children's faces at all. Before and after photos of a person need that person's written consent.
- **Blurry, dark or sideways photos.** One sharp photo beats three soft ones.
- **The same photo twice,** or eight photos of one room.
- **Other businesses' logos and photos.** Brands you carry have their own place (page 11).

Verified Business adds one YouTube or Vimeo video, shown first in your photos and playing right on your profile. Thirty to sixty seconds of your work is plenty.

Stuck for words?
Let ChatGPT draft it.

Section 3 of the form, Tell people about you, has a **Write it with ChatGPT** button. It does not write anything by itself: it hands ChatGPT your details and your answers, and you decide what goes on your profile.

01

FILL IN SECTIONS 1 AND 2 FIRST

Your category, name and town go to ChatGPT with your answers, so the draft is about your business, not a generic one.

02

PRESS WRITE IT WITH CHATGPT

Four short questions open. Answer any of them, in your own words. Hints for your category appear beside them.

03

OPEN CHATGPT WITH MY ANSWERS

ChatGPT opens in a new tab with everything filled in. A free ChatGPT account is enough.

04

COPY WHAT IT WRITES, PASTE IT BACK

Come back to the form and paste it into the description box. Nothing is saved until you save the form.

05

MAKE IT YOURS

Read it aloud. Fix anything that is not true, and change anything you would never say. Use the checklist on the next page.

THE FOUR QUESTIONS	A GOOD ANSWER
What do you believe in, or how do you work?	“We quote before we start and clean up before we leave.”
Who will customers see, and what are their qualifications?	“Sipho, a registered plumber with 15 years in Pinetown.”
How long have you been doing this?	“Since 2011.”
What makes you different, or what do customers love?	“Same day callouts, and we answer the phone on weekends.”

05 · YOUR DESCRIPTION

ChatGPT drafts. You sign it off.

Your description can be up to 5 000 characters, but the best are three short paragraphs. Write at least 300 characters for the full points: about four sentences.

WEAK	STRONG
We are the best plumbing company in Durban, offering world class service and unbeatable prices to all our valued customers.	Thabo's Plumbing fixes burst geysers, blocked drains and leaking taps across Pinetown and Westville. We quote before we start, and most callouts are sorted the same day. Sipho, our registered plumber, has 15 years on the tools.
Says nothing a competitor could not say. "Best" cannot be checked.	Names the problems people actually have, the area, a promise and a person.

Before you paste, check

- **Every fact is true.** ChatGPT fills gaps with guesses: years, awards, guarantees and qualifications you never gave it. Delete them.
- **No claims you cannot prove:** "best", "cheapest", "number one", "guaranteed results".
- **The first sentence says what you do and where.** It is what shows in discovery results and in Google.
- **Name the problem, not only the category.** People look for "burst geyser" before "plumber".
- **Plain words.** Remove "nestled", "bespoke", "unparalleled" and anything else you would not say to a customer.
- **Regulated professions:** doctors, attorneys and other registered professionals may describe what they do and their registration accurately. Leave out comparisons with colleagues and promises of results, as your professional code requires.
- **No phone numbers or links in the text.** They have their own fields, which are the ones customers tap.

06 · SERVICES

Say what you do, one line at a time.

Services sit in section 5. Add one line per service or class, up to 30. The first four earn points, and every one is a way to be discovered: a customer looking for that exact thing finds you.

INSTEAD OF	WRITE
Plumbing	Geyser replacement · Blocked drains · Leak detection
Beauty treatments	Gel manicure · Brow lamination · Hot stone massage
Legal services	Divorce and custody · Wills and estates · Property transfers
Classes	Beginner yoga class · Pregnancy yoga · Private sessions

- **Prices are optional.** “R250”, “from R150” and “POA” all work. A price, even a starting one, saves you calls from people who cannot afford you.
- **Keep each name short** (up to 120 characters). The detail belongs in your description.
- **Most popular first.** Services show in the order you list them.

The rest of section 5

	WHAT IT IS FOR
Facilities	Tick what you offer: card payments, delivery, online booking, parking and the options for your category. Tick online booking and add the link to your booking page, or take bookings on your profile itself with Verified (page 12).
Areas of focus	What you specialise in, separated with commas, up to 20. “Sports injuries, back pain” for a physio.
Credentials	Your qualifications and registrations, as you state them.
Menu	For restaurants and cafés: one PDF, or photos of up to 4 pages, 10 MB each.

07 · WHERE AND WHEN

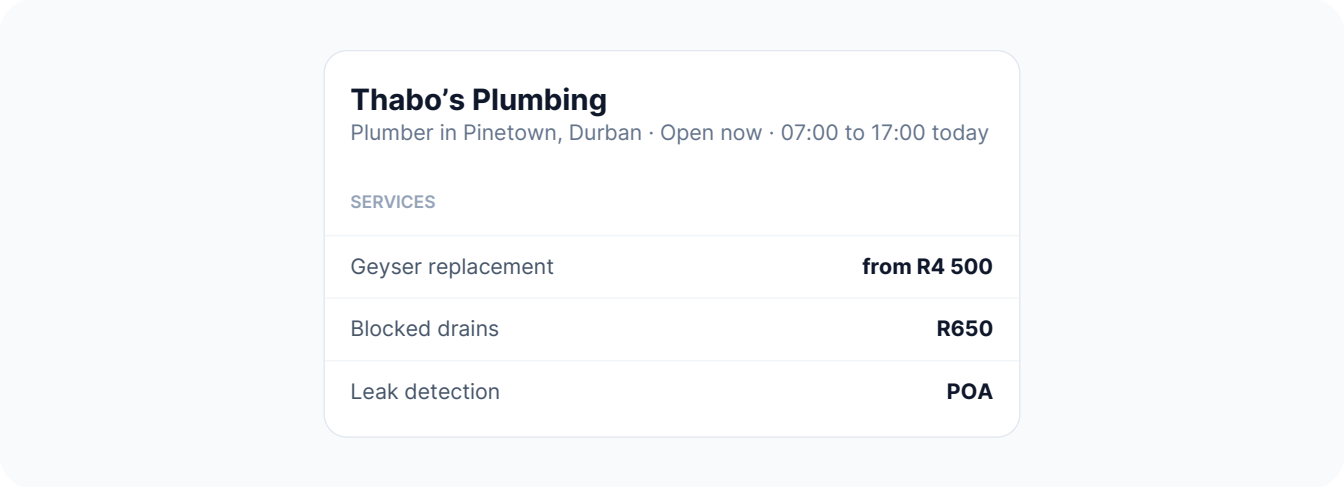

Be on the map.
Be open when they look.

SECTION 4 · WHERE YOU ARE

- **Your address** puts you on the map and in near me results. Type the street address as the post office would write it.
- **Pin your exact location.** Drag the pin to your door. Maps often stop at the street, and a customer who cannot find the entrance phones a competitor.
- **Where do customers meet you?** Choose Customers visit my business, I travel to customers, or Both.
- **Service areas,** if you travel: one suburb or town per line, up to 15. They show on your profile as the places you go.
- **Working from home?** Untick Show my business address publicly. You still appear in your area; your street does not.

SECTION 5 · OPENING HOURS

- Fill in every day you work, at least three, so your profile can say Open now. Your profile shows today's hours in the header.
- **By appointment only?** Tick it, and customers know to call first.
- **Public holidays:** open the public holidays section and add a holiday for each day your hours differ. Check it before Easter and December.

An invented example, as a profile shows it.

Sell a brand people know? Show it.

Brands we carry is a strip of logos that scrolls under your description. It answers a question customers ask before they visit: do you have it, or can you work on mine? It is optional, and for most service businesses it is not needed.

USE IT IF YOU	LEAVE IT OUT IF
Sell or stock brands: a pharmacy, a hardware store, a bike shop	You would be listing your suppliers rather than what customers buy
Service named makes: a mechanic for Toyota and VW, an appliance repairer	You only worked on a brand once
Use a known product line: a salon using a professional hair range	The brand is your competitor
Are an authorised dealer or installer	You would need the logo to make your business look bigger than it is

How to add them

01

UP TO 20 BRANDS

Each with its name (up to 80 characters) and its logo.

02

A CLEAN LOGO

On a clear or white background works best. JPEG, PNG, WebP or GIF, up to 10 MB. The brand's own media page usually has one.

03

ONLY WHAT YOU GENUINELY CARRY

A logo here says you carry the brand. It does not say the brand endorses you, and you must never suggest it does. We may remove a brand a business does not carry.

Show who you are.
Then show everything else.

Verified Business is R60 a month or R625 a year, cancel any time. It puts a checked badge beside your name on your profile and in every discovery result you appear in, and opens the features on the next four pages. Your free profile stays free either way.

VERIFIED ADDS	WHAT IT DOES FOR YOU
The badge	Tells someone choosing between you and an unbadged business that we have checked who you are.
Online bookings	Customers book a time with you right on your profile, and you get a calendar for your team, reminders and a list of your customers. Included, at no extra cost.
Other locations	Up to 6 more branches, each with its own address, phone, pin and hours. Page 13.
Team members	Up to 12 people, with photos, positions and qualifications. Page 14.
Jobs	Post vacancies on our Jobs board, and reply to customers asking for your kind of service. Page 15.
A video	One YouTube or Vimeo video, first in your photos.

How to apply

01

SEND TWO DOCUMENTS

Your CIPC registration certificate or equivalent, and the owner's ID card, ID book page or passport. PDF, JPEG or PNG, up to 10 MB. The whole document must be readable in frame.

02

WE CHECK THEM FIRST

There is nothing to pay until they check out. Your documents are stored privately and never shown on your profile.

03

PAY, AND THE BADGE GOES UP

By Paystack, monthly or yearly. Apply when you sign up, or later from your Manage page.

What the badge does not mean. We check a registration document and the owner's ID. We do not check qualifications, rate your work, or move you up the results: Verified profiles are ordered exactly like everyone else's.

More than one address? Show every one.

Add up to 6 more branches, practices, second rooms or satellite offices. Your main address stays the one in section 4; these appear as Other locations on your profile, and are linked from your header so a customer can jump to the one nearest them.

EACH LOCATION HAS	WHY IT MATTERS
Its own name	“Umhlanga branch” or “Room 4, Medical Centre”. Customers pick by name.
Its own address and map pin	So the right branch comes up for the right area, and each counts in its own town and province.
Its own phone and email	Calls go straight to the branch that can help.
Its own opening hours	Branches rarely keep the same hours. Each shows its own.
A contact person	For us only. Never shown on your profile.

Each location is described to Google as a business location in its own right.

Good practice

- Use the same trading name on every branch, with the area after it, as on your signs.
- Pin each branch at its door, not at the shopping centre’s middle.
- Close a branch? Delete it the same day, so nobody drives to an empty shop.
- A doctor working from two practices adds the second as a location, not a second profile.

People choose people. Introduce yours.

Show up to 12 people in an Our team panel: partners, associates, practitioners, stylists, technicians. A customer who was referred to a person, not a business, lands in the right place, and someone looking for one of your people by name, or for something only one of them does, discovers your business too.

FOR EACH PERSON	HOW TO FILL IT IN
Name	As customers know them: “Dr Thandi Mokoena”, or just “Lynn”.
Position	Their role in plain words: Senior stylist, Associate attorney, Practice nurse.
Qualifications	Degrees, registrations and memberships: “MBChB (UCT), HPCSA registered”. Shown as you state them.
Areas of focus	What they are best at, separated with commas, up to 12.
Short bio	Two or three sentences, up to 1 200 characters. What they do, for whom, and one human detail.
Photo	Head and shoulders, facing the camera, plain background, good light. The same style for everyone looks professional.

Before you add anyone

- **Ask them first.** Their name, photo and qualifications go on a public page. Get each person’s agreement, and remove them when they ask or when they leave.
- **Qualifications must be true.** We do not check them; you are responsible for them, as our Terms say.
- **Keep it current.** A customer who books the person on your profile and finds they left last year does not come back.

Hiring? Post it where people already look.

Post vacancies on our Jobs board straight from your Manage page. Each post links to your profile, and eligible vacancies are set up to appear in Google's job search.

01

A WE'RE HIRING NOTICE

While a vacancy is live, your profile shows a We're hiring pill beside your badges, with a link to apply.

02

A CLOSING DATE, ALWAYS

Posts run 30 days unless you pick a date, and never more than 60. We remind you 3 days before, so you can renew.

03

APPLICATIONS, YOUR WAY

By email, relayed to you without us keeping CVs, or through a link to your own application page. Each person can apply only once per vacancy.

04

OPTIONAL SCREENING

For email applications, choose a level (Basic, Intermediate or Advanced) and each applicant answers a short reading, language and numbers check. You see their score.

Service requests: new work, sent to you

Customers post requests on the Jobs board: "Need a plumber in Pinetown this week." Verified businesses can reply, up to 5 replies per request, and when a request matches your category and province, verified businesses are the first we alert, no more than 3 alerts a day.

Keep it safe. Never ask an applicant to pay for training, registration, a uniform or placement. Posts that read like the common job scams wait for a person to check them. Our free Hiring guide on the Guides and reports page covers fair choosing, consent checks and offers.

Reviews you can trust, and how to earn them.

Every profile can receive reviews, and every owner can reply. Neither needs Verified Business, and a rating never changes where you appear.

HOW A REVIEW GOES UP	
1. Written	One to five stars and 30 to 1 500 characters, on your profile.
2. Confirmed	The reviewer clicks a link we email them. One review per person per business. Unconfirmed reviews are deleted after 7 days.
3. Read by us	A person reads every review before it is published.
4. Published	Your newest 5 show, with Show more for the rest.

Getting more reviews

- Ask when the job is done and the customer is happy. Send your profile link on WhatsApp with one line: “If you have a minute, a review helps us a lot.”
- Ask everyone, not only the customers you expect to be kind. A mix reads as real.
- **Never** pay, offer a discount for, or write a review yourself, or have staff and family do it. We remove reviews like these when we find them.

Replying

- Your reply goes up under the review straight away, up to 1 000 characters. Reply to good reviews too.
- To a bad review: thank them, say what you will do, and invite them to call. Short and polite. You are writing for the next customer, not winning the argument.
- Never put the customer’s private details, threats or legal language in a reply.
- You cannot delete a review. If one breaks our terms, report it; when 3 people report a review, it goes back to us to check.
- You can switch new reviews off for your whole profile on your Manage page. Published reviews stay.

Before you press save. Tick these off.

ON EVERY PROFILE	PAGE
Trading name only, and the category a customer would look for	4
A phone number that is answered, and WhatsApp if you reply	4
A logo, and at least 5 sharp landscape photos, best first	5 and 6
A description of at least 300 characters, every fact checked	7 and 8
At least 4 services, most popular first, with prices where you can	9
Facilities ticked and areas of focus added	9
Address, a pin at your door, and service areas if you travel	10
Hours for every day you work, and public holidays	10
Your social pages	4
Brands you genuinely carry, if it applies	11

WITH VERIFIED BUSINESS	PAGE
Registration document and owner ID sent	12
Every branch added, each pinned with its own hours	13
Team members added, with their agreement and matching photos	14
Open vacancies posted, with a closing date	15
A short video of your work	6

Aim for a profile strength of 65 or more.

Share it.
Keep it fresh.

Your profile has its own address. The more places it is linked from, the more customers discover it, and the more search engines trust it.

01

SHARE YOUR LINK

In your WhatsApp Business profile and status, your email signature, your social pages' bio, and on your invoices and quotes.

02

USE IT AS YOUR WEBSITE

No website? Put your profile link in the website field of your Google Business Profile and your social pages.

03

KEEP YOUR DETAILS THE SAME EVERYWHERE

Name, phone and address should match on your profile, Google, Facebook and your signage. Differences make search engines unsure which is right.

04

READ YOUR MONTHLY REPORT

Unless you opt out, we email you each month how many people viewed your profile and where your leads came from.

05

REFRESH IT

New photos each season, holiday hours before each holiday, services and prices when they change, vacancies renewed or closed, team members current.

To change anything, go to local.webscheduler.co.za/manage and we email you a link. Our free Local visibility playbook, on the Guides and reports page, covers the wider picture: Google, maps and AI assistants.

WEBSCHEDULER LOCAL

Discover local.
Be discovered.

A free business profile takes about twenty minutes. Real photos, an honest description, your services and your hours are what customers choose by. Verified Business adds your people, your branches and your vacancies.
