WebScheduler Local

BUSINESS PROPOSAL

A local presence that keeps working.

WebScheduler Local is a local business discovery and visibility platform built for South Africa, for businesses, professionals, service businesses, mobile businesses, and the people they hire.

WebScheduler (Pty) Ltd · October 2026

Your business.
Your services.
Your locations.
Your people.
Your opportunities.

A business isn't just a name in a list.

It's the people behind it. The services it provides. The places it operates. And the opportunities it creates. A WebScheduler Local business profile is your local presence online: one place where customers discover what you do, understand whether you are right for them, and contact you.

IN THIS PROPOSAL

Why local search matters · your business · your services · your locations · Verified Business · your people · your opportunities: hiring, and work coming to you · who it suits · how it compares · what it costs · getting started

WHY IT MATTERS

People don't want another advert. They want a local answer.

Customers search for the problem they have, near them, at the moment they need it. The businesses that win that moment are the ones whose details are complete, consistent and easy to find.

	PAID SOCIAL	LOCAL SEARCH
When it reaches someone	While they are browsing something else.	While they are looking for what you sell.
Who chooses the audience	You do, by guessing at interests.	The customer does, by typing the search.
What it costs to keep going	Reach stops when the spend stops.	Effort rather than media spend. The profile stays up.
How much it can explain	One creative and a few seconds of attention.	Services, area, hours and contact details in full.

WHY IT COMPOUNDS

Search engines trust a business they can corroborate: the same name, address, phone number and services, stated the same way in more than one independent place.

Claim your Google Business Profile first. A WebScheduler Local business profile then gives South African customers another route to you, and gives search engines one more consistent, well structured source that agrees with it.

01 YOUR BUSINESS

Tell people what you do. Show them who you are. Let them find you.

What you do, your story, your photos and your opening hours, on a profile customers find in search, on the map and in your category, with every way to reach you, including Chat on WhatsApp and Book online buttons. Free.

02 YOUR SERVICES

Make the services you provide discoverable.

The services you offer, named the way customers search for them, with prices if you want them, so “burst geyser Fourways” finds you, not only “plumber”. Free.

03 YOUR LOCATIONS

One business.
Multiple practices.
One local presence.

Every branch or practice with its own address, map pin, contact details and hours, up to 6 more on one profile, each described to Google as a business location in its own right. A free profile shows your main address, or the suburbs you travel to.

VERIFIED BUSINESS · R29.99 A MONTH

People want to know
who they are dealing with.

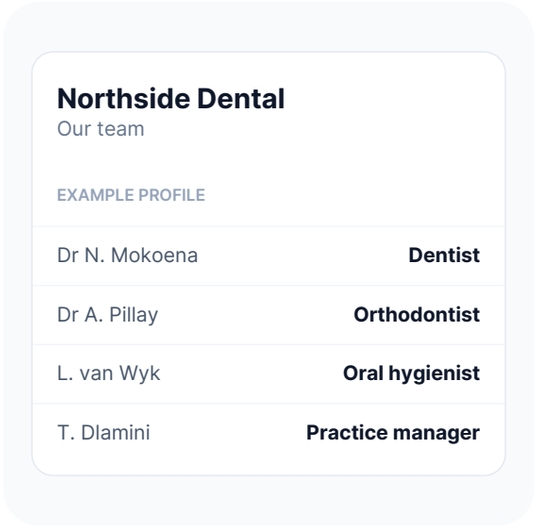

A green Verified Business badge on your profile, and beside your name in every search result, means a person here has checked your company registration document and the owner's ID. It also adds your other locations, your people, your job vacancies and replies to requests for work.

01 **SEND TWO DOCUMENTS**
When you sign up or any time after. Stored privately, never shown on your profile.

02 **WE REVIEW THEM**
Usually within two working days. **Nothing to pay until you are approved.**

03 **CANCEL ANY TIME**
One button. The badge stays for the month you paid for; your profile stays as it is.

The badge checks identity, not quality, not qualifications, licences, insurance or the standard of anyone's work, and it does not move a business up the results. We sell the check, not the ranking.

04 YOUR PEOPLE

Meet the people behind the business.

Up to 12 team members, each with a photo, their role, their qualifications and their areas of expertise, so a customer who was referred to a person, not a business, lands in the right place.

With Verified

MORE SEARCHES FIND YOU

A search for one of your people by name, or for something only one of them does, brings up your business too.

For a practice, a firm or a salon, customers often remember the person before the business. Showing your team turns every one of them into another way in. Qualifications appear as you enter them; the badge checks the business, not each qualification.

ESPECIALLY USEFUL FOR

Medical and dental practices · law and accounting firms · salons, spas and studios · training providers and schools · any business where clients ask for someone by name

Jobs. Requests. Services needed.

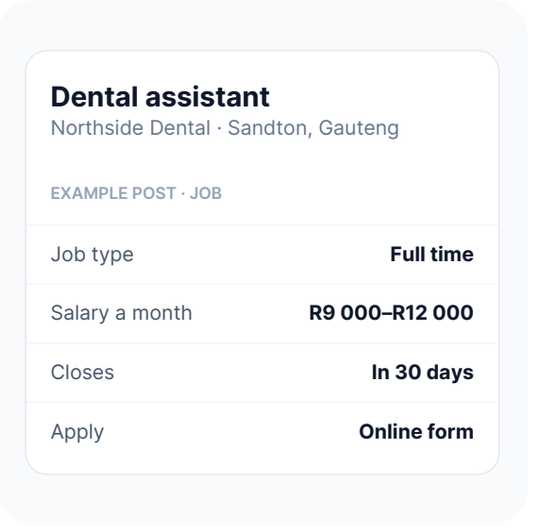

The Jobs board brings two kinds of opportunity together: vacancies posted straight from local business profiles, and people looking for someone to do a job. It turns your profile from something customers read into something that brings people and work to you.

05 HIRING

Post a vacancy from your profile.

Advertise a job in minutes from your dashboard. Applicants see your full profile, your services, your people, your reviews, before they apply.

WHAT YOU GET	WHY IT MATTERS
Seen on Google	Set up so eligible vacancies can appear in Google's job search. Posts that show pay get more applicants.
Live straight away	Posts from a business profile normally go live immediately.
Applications, privately	Applicants apply through a form and we pass it on by email. Your address is never shown. Or send them to your own careers page. We keep no CVs.
No stale posts	A post closes after 30 days unless you choose a date, and we email you before it closes so you can renew it.
A board people trust	Every post carries a never pay to apply warning, and a post visitors report is hidden until we have looked at it, so genuine employers are not drowned out by scams.

05 WORK COMING TO YOU

Someone nearby needs what you do.

Anyone can post a request for a service on the Jobs board, free. When one matches your category and province, we email it to a small number of businesses, verified businesses first.

With Verified

HOW A REQUEST BECOMES WORK

01 **A CUSTOMER POSTS**
They describe the job and where it is. Posting a request is free, and the public never pays to use the board.

02 **WE ALERT MATCHING BUSINESSES**
By category and province, verified businesses first. Alerts are on by default and switch off with one click.

03 **YOU REPLY**
From your dashboard. Each request takes only a limited number of replies, so being first matters.

04 **THEY CHOOSE**
Your reply is passed on by email. Your profile, services, prices, photos, reviews and people, does the rest.

THE DIFFERENCE

No pay per lead. No bidding. Replying is part of Verified Business, at R29.99 a month.

BUILT FOR YOUR KIND OF BUSINESS

One platform, many ways of working.

People search for the problem they have, in their own words. A complete profile answers the specific search as well as the category. Here is what works hardest for each kind of business.

IF YOU ARE	WHAT WORKS HARDEST FOR YOU
A professional practice doctors, dentists, attorneys, accountants, tax practitioners	A complete, factual profile. The kind of presence professional codes are most comfortable with. With Verified Business: each practitioner shown with their role and qualifications, and found by name.
A service business salons, spas, studios, clinics, tutors	Services with prices, a Book online button, photographs of your work and reviews you can reply to.
A mobile or home based business plumbers, electricians, mobile hairdressers, cleaners	Choose “I travel to customers”: your profile shows your town and the suburbs you serve, and keeps your street address private. A WhatsApp button, and, with Verified Business, requests for work from people nearby.
A business with branches practices, franchises, multisite clinics	With Verified Business: up to 6 more locations on one profile, each with its own address, phone, map pin and hours.
An employer any business that is hiring	With Verified Business: vacancies on the Jobs board, set up for Google's job search, posted straight from your profile.
A sole trader or freelancer	A free profile as an individual, with your services, your area and every way to reach you, no website needed.
Based outside South Africa	Welcome on a monthly **International Profile** subscription, billed in rand; the price is shown before you pay.

HOW IT COMPARES

Where we stand out, and where we fit.

Next to Google Business Profile and the South African directories. Free means on every free profile; Verified means it needs Verified Business, R29.99 a month.

FEATURE	WEBSCHEDULER LOCAL	GOOGLE BUSINESS PROFILE	SA DIRECTORIES
Free business profile	Free, for a South African business	Yes	A basic listing is free; better placement is paid
Services, with prices	Free	Yes	Varies
Customer reviews	Free; checked before they go up, and you can reply	Yes	Varies
Online booking	Free Book online button to your own booking page	Booking link, or Reserve with Google	Varies
Multiple locations	Verified: up to 6 more on one profile	A separate profile for each location	Usually a separate listing each
Staff profiles, searchable by name	Verified: up to 12 people	Partly	Varies
Job vacancies	Verified: set up for Google's job search	No	Not a core feature
Requests for work from the public	Free to post; replying is Verified	Not in South Africa	Some sites charge per lead
